Disclosure of Personal Information:

NNCIP is committed to keeping your personal information strictly confidential. Only NNCIP will retain your information. When we collect your personal information (i.e. name, address, e-mail, and telephone number) it is used to:

1. Collect fees and to contact you concerning payment status.
2. Improve your online experience and to notify you about program updates, services and answer inquiries.

Beyond the reasons described above, it is our policy not to disclose any of your personal information at any time, unless you tell us to do so. We do not sell, trade or rent your personal information to third parties. From time to time, we'll share aggregated (collective) information about our members as a group, or generate aggregate reports and market research for business partners. These reports will not identify individual members.

Cookies:

Our site uses cookies to personalize and improve your shopping experience. These cookies do not contain any confidential or personal information. They allow us to enhance your online experience at nncip.com.

Security:

We use industry-standard methods to protect your information from unauthorized access. Among other techniques, we store such information on a computer behind our "firewall" in a secure location, and we restrict the number of employees internally who can access such data. To ensure the safety of your personal information, including your credit card number, we use Secure Socket Layer (SSL) Technology. SSL protects information as it crosses the Internet. Any data stored is kept in a secure off-site location and stored in a password-protected server. Please be aware, of course, that there is no such thing as perfect security - on or off the Internet.

Please keep security in mind as you reach other web sites through links from the NNCIP web site. Each separate company has its own privacy policies and practices and may market to you accordingly. Although we choose our business partners carefully, we can make no representations concerning privacy and security on those sites.
